CCSD-TCD Transport case for 10x CCSD-D

www.boschsecurity.com

BOSCH
Invented for life

- Stores up to ten Discussion Devices with cables
- Attractive, sturdy construction
- Specially shaped interior to securely hold Discussion Devices
- Easy to transport and store, due to wheels and handles
- Two separate locks for optimum security

The CCSD-TCD Transport case is used when the CCS 1000 D system is not used in one fixed location and therefore has to be easily transported and stored. This is often the case in town halls, hotels, business centers, local government offices, or smaller halls in major conference venues.

Functions

Capacity
The Transport case can store up to ten Discussion Devices (any combination of CCSD-DS or CCSD-DL devices is possible).

Specially shaped interior
The shaped foam interior provides ample protection for the Discussion Devices.
It also enables easy packing and unpacking.

Easy to transport and store
The Transport case has a stylish design but is also extremely durable and practical. It has a handle on the top and side, and two wheels on the underside for easy transport. There are two separate locks for optimum security; keys are included.

Parts included

Quantity	Component
1	CCSD-TCD Transport case
